

MASTERSPIKES™

Masterspikes™ are anti-bird spikes proudly designed and made in Singapore. Our spikes trump others in terms of durability and effectiveness.

## MASTERSPIKES™

Masterspikes™ are Mastermark's very own anti-bird spikes. Built with superior quality and durability, it is able to maintain its effectiveness despite rain or shine. Enhanced pin angles allow total exclusion of perching birds and are visually inconspicuous. Our spikes are easily customisable to fit different configurations of carious areas such as roof gutters and eaves.

2 pin

4—6 Inches  
wide ledges

3 pin

up to 7 Inches  
wide ledges

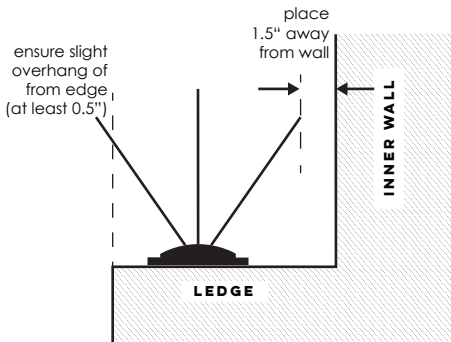

4 pin

up to 8 Inches  
wide ledges

### WHEN ARE SPIKES USED?

Masterspikes are a deterrent for birds to prevent them from perching on a variety of surfaces such as ledges, piping, window sills, commercial signage, street lighting and more. Though many are concerned about the aesthetics of bird spikes, our enhanced pin angles on Masterspikes not only deters bird but remain inconspicuous, not affecting your building façade.
